Owner/Luthier/Guitar-Tech Rob Cusumano has been building and repairing musical instruments professionally for over 30yrs. He has worked for some of the world's largest & most popular guitar manufactures in the world, including Dobro, Fender©, Music Man and G&L Guitars. And now, he's unveiling some his new uniquely innovated guitars & basses.

"All our instruments are Handmade here in the USA. And we employ no CNC machines. I have always been drawn to the early artist and craftsmen that continued a tradition of a true artistry form of building, using old world techniques that was not only consistent but uniquely beautiful both musically and functionally...making a truly handmade boutique instrument. Those are the instruments that are most sought after and most valued even by today's standards". -RC

Acousta-Elecktra "Classic" Nylon String Guitar

USA

Our New Thin Body Semi-Acoustic Electric with unique Patent Pending Sound Chambers, exclusive Internal Passive Pickups & Electronics, Solid Tonewoods and Superb Craftsmanship that will bring to life the full warm classical guitar sound. The guitar is outfitted with three internal passive pickups, one master volume control and nylon classical strings. We will also offer it with a choice of classical, folk or electric guitar shaped necks. A midi option is available as well. The idea behind this guitar is to have a full, warm, distinctive classical guitar sound, capable of reaching high volume for the concert stage, with little to no feedback, from a thin two inch semi-hollow body guitar. No excuses here...if you love the sound of a nylon string classical guitar, but are used to the feel of a folk or electric guitar neck...this is the one for you!

Handmade in the USA.
